Bermejo Agentes is a family company that has supplied raw materials for the food and beverage industry for more than 50 years. Since 1960, we have worked with the main Spanish companies and we have established a close business relationship with them. We are the second generation working in the company so that this project continues growing each day. BAOR is the new brand created to consolidate the two companies: Bermejo Agentes & Original B2B.

Nowadays, we produce high quantities of industrial products in several plants around Spain. We have a great expertise into the agro-alimentary industry that allows us to give advise to our clients about the accurate products for their purchase needs.

Our thought is that collaborative efforts increase your efficient and competitiveness. We encourage your company to join us and grow together.

“It always seems impossible until it’s done”.
